STEEL RULE DIES

LASER MACHINING

WATERJET CUTTING

Call 585-254-3395

**STEEL RULE DIES**

**APPLICATIONS**

- Pocket Folders
- POP Displays
- Folding Cartons
- Corrugated Boxes
- Gaskets
- Labels
- Membrane Switch Panels
- Magnets
- Foam
- Filter Boxes
- Flexible Circuits
- Build Up Dies
- Clicker Dies

**LASER MACHINING**

**CAPABILITIES**

- Mild Steel
- Stainless Steel
- Sheet Metal
- Acrylic
- Kydex
- Wood

**WATERJET CUTTING**

**CAPABILITIES**

- Aluminum
- Mild & Tool Steel
- Inconel
- Titanium
- Plastic
- Rubber
- Wood
- Stone
- Ceramic
- Glass

**MOST ORDERS SHIPPED  
SAME OR NEXT DAY**

**Steel Rule Dies In Any  
Shape or Size**

We can fabricate any rule die, from small and simple to large and complicated. Our customers in the finishing, corrugated, gasket and foam industries, among others, demand and receive a superior quality steel rule die that enable them to compete and profit against their competitors. At Paragon, close tolerance, high quality laser cut dies are the norm, not the exception. In fact we are so confident in the quality of our dies we guarantee every one we make.

Automatic steel rule bending machines allow us to easily create intricate dies to very precise tolerances.

**Same Day Service**

Our modern equipment includes two automated steel rule bending machines, which enables us to produce steel rule dies very quickly, and with increased quality. In fact, most of our orders are shipped the same or the next day. Need a quality die in a hurry, call Paragon.

Paragon can fabricate steel rule dies for large roller presses with a 2" maximum rule height.

**Other Steel Rule Die Components**

- > Male & Female Blanking Units
- > Male & Female Stripping Units
- > Acrylic Based Dies
- > Rayform Based Dies
- > Clicker Dies
- > Phenolic Counter Plates
- > Waterjet Cut Ejection Rubber
- > Stainless Steel Cutting Plates
- > Stainless Steel Backer Plates

**Quality Assurance Guaranteed**

Usually, speed and quality are two things that are not easily accomplished at the same time. You either get one or the other. However, our modern equipment has changed the equation, enabling us to deliver quality dies within 24 hours. It's not to say modern technology alone can assure product integrity. We take the necessary steps to make sure every steel rule die we manufacture meets our customers' expectations. In fact, we guarantee the workmanship of every die we make. When you order a Paragon steel rule die, you can be sure it will perform right the first time and every time.

MEMBER INTERNATIONAL  
ASSOCIATION OF DIECUTTING  
AND DIEMAKING

### ▶ Re-rule or Revise Existing Dies

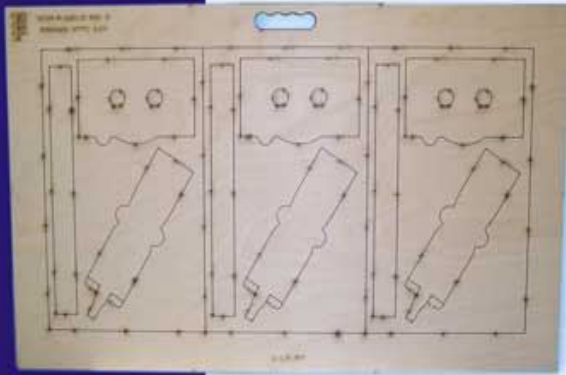

Like all tooling, dies have a service life. After prolonged use, the die will slowly loose its optimum edge resulting in less than desirable cutting performance. The most cost-effective remedy may be to re-rule the die. Paragon will re-rule any die, ours or our competitors and bring it back to good-as-new condition. We can also revise existing dies, such as adding business card slits to an existing pocket folder die.

### ▶ Custom & Specialty Dies

Paragon Steel Rule Dies can produce custom dies for special or unique applications such as acrylic backed dies for the label industry. We can make heat receptive dies mounted in Rayform or steel. When faced with a unique die application, give us a call, our expert technicians are solutions oriented people. They have years of experience in the steel rule die industry and will design a custom die for your specific application.

In addition to conventional wood-based dies, Paragon can manufacture transparent Acrylic based dies and heat tolerant Rayform based dies.

Foam Cutting Die

### ▶ Full Service, Single Source Supplier

Paragon is a one source, full service steel rule die manufacturer. We provide custom CAD/CAM design services. We verify the integrity and accuracy of our dies by running production test and fabricating finished samples in paper or corrugated materials. Paragon can also provide accessory items like phenolic counter plates, stripping and blanking systems and sealing trays for blister packing, heat sealing boards, backer and mounting plates for dies and aluminum heat sealing plates. To find out more about our steel rule die services or to obtain a quote please call us at 585-254-3394 or click on the "get quote" button.
